

TOUGH IN EVERY ENVIRONMENT...
BUT NOT ON YOUR BUDGET.

Cutting-edge technology just got more affordable.

Want the latest rugged technology,
entirely personalised to your business?
With no large upfront costs?

You may be interested in our brand-new
TOUGHBOOK-as-a-Service offering.

Why choose TOUGHBOOK-as-a-Service?

TOUGHBOOK-as-a-Service provides finance
options for the latest rugged TOUGHBOOK
products and services to suit any budget.

Let's explore in a little more detail.

A FINANCE SOLUTION LIKE NO OTHER

With 0% interest* you pay the same as a cash purchase, but with the exceptional benefit of spreading your payments over the long term. Your budget goes further. So you can allocate it to other resources.

Should you want to own your assets at the end of your contract, Econocom – our TOUGHBOOK-as-a-Service finance partner – can accommodate that too.

UNINTERRUPTED EFFICIENCY

No more outdated tech means no more unexpected maintenance and downtime costs. Not to mention increased day-to-day operational savings.

Upgrade your tech more regularly to always have the best equipment and stay ahead of the competition.

AFFORDABLE

Thanks to TOUGHBOOK-as-a-Service, your workforce will be equipped with the latest (and best) rugged devices, software and services. All for low monthly costs.

Subscription-based TOUGHBOOK-as-a-Service means you benefit from an OPEX-based model. So it's better for your balance sheet.

GET THE FULL WORKS

TOUGHBOOK-as-a-Service doesn't just apply to our rugged devices. Other items and services (soft costs) can easily be added into your monthly 0% interest payments too.

- Warranties
- Accessories
- Vehicle mounts and docking stations
- Specialist software
- Customisation options
- Professional services

FUSS-FREE FLEXIBILITY

Every TOUGHBOOK-as-a-Service contract can be tailored to your requirements in a number of ways:

- Contract term
- Solution package
- Payment intervals
- Airtime
- MDM and data analytics

HASSLE-FREE END-OF-LIFE SERVICE

Thanks to our partner Econocom, your TOUGHBOOK-as-a-Service package also includes:

- Device delivery
- Collection
- Secure data wiping (in line with GDPR and WEE directives)
- Recycling
